Dear Parents and Guardians,

Your child's school now has a subscription to Tales2go, an award-winning children's audiobook service streaming over 8,000 high-interest titles.

Studies show that when a listening component is added to reading instruction, student achievement increases measurably. Students can listen at a higher level without having to decode each word on a page, and they hear modeled fluent, expressive reading.

By providing this literacy tool, we hope to increase fluency, vocabulary, and reading comprehension. Students who lack access to rich literature at home can fall behind academically.

Tales2go can be downloaded for free on mobile devices by visiting the Apple App Store or Google Play Store. On a desktop or laptop, visit www.tales2go.com/player.

Include listening in your bedtime routine, on a road trip, on your way to sports practice, or anywhere else.

If you need any help or support, please e-mail support@tales2go.com.

Happy listening,

Gwen Mak
Professional Development Coordinator
